

CSE7000 - INTERNSHIP

A Presentation on

AI GPU Summer Internship(Accelerated by NVIDIA)

Student Details	
Name	Chinmayi Patil
Roll No	20241CSE0799
Section	5CSE18

Under the **Supervision** of,

Mr. Aadil Feeroz
Ms. Chinmayi G V
Presidency School of Computer Science and
Engineering
Presidency University

Name of the Program: Computer Science and Engineering (AIML)

Name of the HoD: Dr. Asif Mohamed

Name of the Program Internship Coordinator: Dr.R.Balakrishnan

Name of the School Internship Coordinators: Dr. Bhuvaneshwari Patil

About Company or Organization

Presidency University – AI Centre of Excellence

- **Presidency University** is a higher-education institution focused on providing industry-oriented technical and professional education.
- The **AI Centre of Excellence (CoE)** promotes learning and practical applications in **Artificial Intelligence, Machine Learning, Deep Learning, and GPU Computing**.
- The Centre provides students with opportunities to work on **AI-based projects and emerging technologies**.
- The internship was conducted through the **AI GPU Summer Internship Program (Accelerated by NVIDIA)**.
- The program focused on developing practical skills in **AI model development, GPU computing, Generative AI, and application development**.
- **Key Focus Areas**

Artificial Intelligence | Machine Learning | Deep Learning | Generative AI | GPU Computing

**PRESIDENCY
UNIVERSITY**

Private University Estd. in Karnataka State by Act No. 41 of 2013

Working domain or the technology

- • **Domain:** Artificial Intelligence and Intelligent Resume Analysis
- • **Machine Learning:** Resume evaluation and placement readiness prediction using a **Feed-Forward Neural Network (FNN)**
- • **Deep Learning:** Resume layout analysis using a **Convolutional Neural Network (CNN)** developed with TensorFlow/Keras
- • **Computer Vision & OCR:** Text extraction from PDF and image-based resumes using **PyMuPDF, EasyOCR,** and **OpenCV**
- • **Web Development:** **Gradio** framework for building an interactive web-based resume analysis portal
- • **Development Platform:** Google Colab with Python
- • **Deployment/Access:** **Pyngrok** with Auth Token for secure public access and demonstration

**PRESIDENCY
UNIVERSITY**

Private University Estd. in Karnataka State by Act No. 41 of 2013

Objectives of the work

- • To develop an **AI-powered resume evaluation platform** that automatically analyzes resumes and provides comprehensive feedback to students and job seekers.
- • To predict **ATS compatibility and placement readiness** using a Feed-Forward Neural Network based on extracted resume features.
- • To implement **resume layout analysis** using a Convolutional Neural Network (CNN) for evaluating the visual quality and structure of resumes.
- • To perform **role-based skill matching** by identifying detected and missing technical skills and generating personalized recommendations.
- • To automate **resume text extraction** from PDF and image formats using **PyMuPDF**, **EasyOCR**, and **OpenCV**.
- • To integrate all AI modules into an **interactive Gradio web application** with graphical visualizations and SQLite database support.
- • To gain practical experience in **Artificial Intelligence, Deep Learning, Computer Vision, Optical Character Recognition (OCR), and Machine Learning**.

Methodology Used / Course Description

- **Environment Setup**

- Configured Google Colab with GPU support and installed the required AI, Machine Learning, and Computer Vision libraries.

- **Resume Processing**

- Extracted text from PDF and image resumes using **PyMuPDF** and **EasyOCR**, followed by feature extraction and preprocessing.

- **AI Model Development**

- Developed a **CNN** for resume layout analysis and a **Feed-Forward Neural Network (FNN)** for ATS score and placement readiness prediction.

- **Application & Deployment**

- Integrated all modules into a **Gradio** web application, generated analytics and recommendations, stored evaluation history in **SQLite**, and deployed using **Pyngrok**.

**PRESIDENCY
UNIVERSITY**

Private University Estd. in Karnataka State by Act No. 41 of 2013

Key learning areas

- • **Artificial Intelligence** – Intelligent resume evaluation and automated decision-making
- • **Machine Learning** – ATS score prediction and placement readiness assessment
- • **Deep Learning** – CNN for resume layout analysis and FNN for resume scoring
- • **Computer Vision & OCR** – Resume text extraction using EasyOCR, PyMuPDF, and OpenCV
- • **AI Application Development** – Gradio-based web application and interactive user interface
- • **Database Management** – SQLite integration for storing resume evaluation records
- • **Data Visualization** – Performance analysis using Matplotlib charts and graphical dashboards

**PRESIDENCY
UNIVERSITY**

Private University Estd. in Karnataka State by Act No. 41 of 2013

Results

- Successfully developed **ResumeRoast AI** for automated resume evaluation and placement readiness prediction.
- • Implemented **CNN** for resume layout analysis and **FNN** for ATS score and readiness prediction.
- • Extracted and analyzed resume content from **PDF and image formats** using **PyMuPDF** and **EasyOCR**.
- • Performed **role-based skill matching** and generated personalized resume roast messages and improvement suggestions.
- • Developed an interactive **Gradio** web application with graphical analytics and resume evaluation reports.
- • Integrated **SQLite** for evaluation history and **Pyngrok** for secure public deployment and demonstration.
- This is **short, informative, and presentation-friendly**, closely matching the style of your reference PPT.

**PRESIDENCY
UNIVERSITY**

Private University Estd. in Karnataka State by Act No. 41 of 2013

Analyze Resume

ATS Score	Design Score	Skill Score	Placement Readiness
56.4 / 100	45 / 100 (Poor Layout)	40.0 / 100	48.7 / 100 (Placement Ready)

Resume Roast Section

🔥 ROAST: Your social/portfolio presence is non-existent. Are you hiding your code? Your match for AI Engineer is weak. Your skill section looks like a ghost town. Your bullet points read like a task list. Show me numbers, metrics, and actual impact!

Improvement Suggestions

- Add explicit clickable GitHub and LinkedIn links near your contact info.
- Incorporate missing core skills: pytorch, machine learning, deep learning, nlp.
- Quantify achievements (e.g., 'Improved model efficiency by 15%').

Detected Skills

python, tensorflow, cv, sql

Missing Skills

pytorch, machine learning, deep learning, nlp, numpy, pandas

Recommended Certifications

NVIDIA Certified Associate: AI in the Data Center
• Meta Professional Certification for AI Engineer

Recommended Projects

End-to-End AI Engineer Dashboard with Deployment

- Optimized ML Inference Service using TensorRT/ONNX

Activate Windows

End-to-End AI Engineer Dashboard with Deployment

- Optimized ML Inference Service using TensorRT/ONNX

Detected Skills

python, tensorflow, cv, sql

Missing Skills

pytorch, machine learning, deep learning, nlp, numpy, pandas

Recommended Certifications

NVIDIA Certified Associate: AI in the Data Center
• Meta Professional Certification for AI Engineer

Recommended Projects

End-to-End AI Engineer Dashboard with Deployment

- Optimized ML Inference Service using TensorRT/ONNX

Conclusion

- • Successfully developed the **ResumeRoast AI** platform as an AI-powered resume evaluation and placement readiness system.
- • Integrated **Machine Learning, Deep Learning, Computer Vision, and Optical Character Recognition (OCR)** for intelligent resume analysis.
- • Implemented **ATS score prediction, resume layout evaluation, role-based skill matching, and personalized recommendations.**
- • Gained practical experience in **Python, TensorFlow, EasyOCR, OpenCV, Gradio, SQLite, and Machine Learning.**
- • The project demonstrates the potential of **Artificial Intelligence in enhancing resume quality, employability, and career guidance for students and job seekers.**
